

SFZ/SSD/HR/2016/185

9th March 2016

Dear Sir/Madam,

I wholeheartedly endorse the *Creative People Solutions* (CPS) team to you.

They have an extremely professional and creative approach to use practical activities and expert debrief to help participants understand and engage with each topic and apply it to their lives. Their training consistently exceeds my highest expectations and I have seen real change in the attitudes and behaviours of my staff following the training.

We are thankful to have access to organisations such as this to be able to continue to develop education and leadership capacity in the Sultanate of Oman. I hope that they continue to expand their programs to benefit all levels of society. With their proven track record, I am sure that whatever size or scope of project they are entrusted with that they will design, deliver and evaluate training with excellence.

Yours sincerely

Abdulaziz Al-Shanfari
